Russian

ACHIEVEMENTS

- 2nd place in Skyhacks artificial intelligence hackaton organized in Gliwice
- two times finalist of Silesian Mathematical Competition
- participation in second stage of Polish Mathematical Olympiad

HOBBYS

Chess

- I play mostly online on lichess, i achieve peak rankings of over 2200 points. Additionally I'm following development of methods used in the best computer chess engines.

Speedcubing

- Discipline of solving logical puzzles like Rubik's cube as fast as possible. I achieve average results of under 20 seconds.

Mathematics

- In particular I'm interested in mathematical competitions like Polish Mathematical Olympiad.
